Specialist Contractor

to the UK's heritage sector

CRL Restoration

undertake the **restoration, conservation, refurbishment, strengthening** and **cathodic protection** of **historic, period and modern** buildings and structures. **CRL Restoration** aim to restore the nations heritage buildings utilising all the **combined experience** of our **directly employed** managers and skilled operatives and our **reliable supply chain**. **CRL Restoration** constantly exceed our clients expectations by completing all projects on time, **within budget** and to our clients satisfaction. The **unique difficulties** associated with working in and around office blocks, churches, schools and other occupied premises, calls for a **fresh** and **innovative approach** from an experienced **specialist company**.

Structural maintenance is an important part of heritage building refurbishment. **CRL Restoration's in-house skilled operatives** undertake masonry, brickwork and concrete repairs compliant with **European Standards**, as well as the **installation** of **wall ties** to **stabilize masonry** or **cladding**. This work is undertaken in conjunction with the **application of protective coatings, door and window replacement** or **repair, roofing works**, and all other aspects of building restoration that may be required. These activities add not only **aesthetic quality**, but will also **significantly prolong** the **life** of the **building**. **CRL Restoration** work closely with our clients to offer technical and budgetary advice to **ensure** that their **objectives** are met .

Caring for the UK's heritage

for over **60 Years**

CRL Restoration

specialise in concrete repairs to listed/ iconic structures & buildings and cathodic protection systems to steel framed buildings. Our extensive expertise and experience in the design and installation of cathodic protection to combat Regent Street disease have enabled numerous clients to save costs by significantly reducing the amount of stonework and masonry replacement required. **CRL Restoration** have carried out more cathodic protection schemes than any other contractor and were the first in the UK to undertake a commercial contract using this method of steel frame corrosion control. CRL Restoration, using expertise from other sectors are the leading contractor in the UK for the concrete repairs to listed structures.

CRL

Restoration offer a one stop shop for all your **requirements** in **caring** for **your heritage building** and **structures**. **CRL Restoration** have a specialist **UKAS Accredited survey division** that can undertake detailed **condition surveys** and **investigations**, produce fully documented **reports identifying any existing problems** and **offer assessments and recommendations** on how the building should be restored, including schedules of defects and budget figures.
